<b>Office Action Summary</b>	Application No. 10/542,602	Applicant(s) BERGER ET AL.	
	Examiner Walter E. Webb	Art Unit 1609	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### **Status of Claims**

Claims 1, 6-8, 11, 20-31, 45, 53 and 56 are pending.

Claims 2-5, 9, 10, 12-19, 32-44, 46-52, 54, 55, 57 and 58 have been cancelled.

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 6-8, 11, drawn to a pharmaceutical composition comprising ketotifen or an analog thereof and a chemotherapeutic drug subject to multi-drug resistance by P-gp.

Group II, claim(s) 20-31, drawn to method of treating cancer by administering ketotifen or an analog thereof and a chemotherapeutic drug subject to multi-drug resistance by P-gp.

Group III, claim(s) 45, drawn to method of determining whether cancer should be treated with ketotifen or an analog thereof and a chemotherapeutic drug subject to multi-drug resistance by P-gp by determining whether P-gp is overexpressed by the cell.

Group IV, claim(s) 53, drawn to method of determining overexpression of P-gp and treating cancer by administering ketotifen or an analog thereof and a chemotherapeutic drug subject to multi-drug resistance by P-gp.

Group V, claim(s) 56, drawn to method for preventing or treating multi-drug resistance in an animal or preventing cardiac tissue damage by administering a compound having MDR-reversing and cardiac-protective activity.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the technical feature of Groups I, II and IV is the ketotifen or an analog thereof and a chemotherapeutic drug subject to multi-drug resistance by P-gp. The technical feature of Group III is a method for determining overexpression of P-gp. The technical feature of Group V is a compound having MDR-reversing and cardiac-protective activity. The above groups have different technical features. They have nothing in common, and therefore, cannot have a special technical feature.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not

Art Unit: 1609

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

### **Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Walter E. Webb whose telephone number is (571) 270-3287. The examiner can normally be reached on 9:00am-5:00pm Mon-Fri EST.
